

Tracking Prejudice Speech in School

During one school day, track the derogatory comments that you hear made about the groups listed below. Listen to students and adults in all areas of school. Keep a tally on this sheet of how many times each group has been spoken about in a derogatory manner during that day. **DO THIS PRIVATELY.** You are not to call attention to the hateful remarks, just record them. At the bottom of the page, you may include examples of the statements you heard, but do not record any of the comments that you find highly offensive.

At the end of your day, write a $\frac{3}{4}$ page description of what you experienced on the back of this page. Discuss how you felt doing the assignment and the feelings that you had about the comments that you overheard. Also, discuss whether you find yourself making similar derogatory comments. Describe any ideas that you have to eliminate this kind of speech.

Racial/ Ethnic Minorities	Women	Religious Groups	Different Sexual Orientations	Physically/Mentally Handicapped People
